Prescription Criteria	<p>Have a two year work visa, residency visa or citizenship. Tested HIV Negative and either:</p> <ol style="list-style-type: none"> 1. You are male or transgender, has sex with men, and are likely to have condomless anal sex in the next three months. Also, you've had to have had receptive condomless anal sex in the last three months at least once; or, had anal chlamydia, gonorrhoea or syphilis in the last three months; or, used methamphetamine in the last three months. 2. You have a regular partner living with HIV, who isn't on treatment or has a detectable viral load, and condoms haven't been used regularly. 	<p>Your doctor should be able to prescribe generic PrEP if they are aware of the medication. PrEP prescribing doctors can be found here. If you don't meet the PHARMAC criteria your doctor should still be able to provide a prescription for PrEP, which you have to upload when purchasing the PrEP online. Doctors will vary in their willingness to prescribe PrEP depending on your situation and risk of HIV contraction.</p>	<p>Your doctor should be able to prescribe generic PrEP if they are aware of the medication. * The safety and quality of medicines ordered from outside New Zealand cannot be guaranteed, however tests at a London Clinic of PrEP purchased from overseas websites found no fakes, and adequate drug levels. Many people used generic imported PrEP before PHARMAC approved funding of Gilead Truvada, and many people still use them. Some generic PrEP is approved by Medsafe, but aren't available for import into New Zealand.
